

RSS FEED

**All updates in real time from *museivaticani.va*,
directly on your computer, tablet or smartphone**

The Vatican Museums offer their content via the Rss (Really Simple Syndication) system: a simple, easy and free-of-charge way to stay informed in real time about news, information, events, tour proposals, costs, opening times and closures.

How it works and how to subscribe to the *museivaticani.va* Rss Feed

Subscribing to the *Rss Feed* enables you to receive automatic updates from the Vatican Museums website on the “favourites” or “bookmarks” page of your browser, or in a specific programme, a “reader”.

We indicate [SharpReader](#) and [FeedReader](#) among the various programmes available for desktops, both free and easy to install and to use in just a few simple steps: right-click on the title of the feed corresponding to the channel you intend to subscribe to, then copy and paste the link into the chosen reader.
